INFORMATION

Invitation

On behalf of the organizing committee, it gives us immense pleasure to invite you to participate in the 17th Asian Oceanian Congress of Child Neurology, to be held at YASHOBHOOMI - India International Convention and Expo Centre, New Delhi, India, from 17th to 20th September 2025.

The 17th AOCCN promises an educational extravaganza against the backdrop of Indian heritage, culture, and hospitality. Building on the legacy of past AOCCN congresses, we have curated a scientific program that amalgamates technological advances and groundbreaking innovations with the current clinical practices in child neurology. Our goal is to provide an in-depth insight into all forms of childhood neurological disorders from a global perspective, with strong representation and relevance to the Asia-Oceanic region. We firmly believe that the conference will foster an atmosphere of warm international collegiality, promoting networking and collaboration among attendees and faculty alike.

The conference will be attended by over 2000 national and international delegates and eminent international stalwarts, academicians, and researchers as expert faculty. It will feature multiple pre-conference workshops, extracurricular activities, and cultural events. The main conference will include parallel sessions over four days, along with poster and podium presentations. This will undoubtedly provide global promotion and recognition for all our partners and contributors.

Please join us for an academic feast served with great Indian hospitality at an iconic venue. We look forward to welcoming you to New Delhi.

Dr. Sheffali Gulati
President
17th AOCCN 2025

Why to be a partner for AOCCN 2025?

Benefit from National & International Exposure

Promote your brand on an Asia Oceanian stage with over 2000 Indian and International delegates and stalwarts, academician and researchers involved in Pediatric and Pediatric neurology . These would include representatives of national institutions of repute and organizations such as Association of Child Neurology and Indian Academy of Neurology. The conference will feature multiple pre-conference workshops, extracurricular activities, and cultural events. The main conference will include parallel sessions over four days, along with poster and podium presentations. The workshops and conference sessions are curreted in such a manner that all major subsections of child neurology and the rapidly advancing treatment options are well covered.

Establish Relationships

Connect face-to-face with leading International/national experts across research, practice, and technology. Build relationship with the versatile audience that we are hoping to welcome.

Brand Alliance

Align your brand with cutting-edge research and development and demonstrate your organization's commitment to child health. This will also help pharmaceutical partners in identifying new molecules valuable for the Indian as well as Global market.

Reach for the Future

AOCCN 2025 is the ideal platform to showcase your latest products to a focused audience and influence the future of neurology and pediatrics.
